***Reasons for Allowance***

1. Claims 1-47 are allowed.
2. This is examiner's statement of reasons for allowance.

Regarding claims 1-47, the prior art, either singularly or in combination, does not teach or suggest "...a lever member pivoted at a flexure element, the flexure element being coupled to the stationary housing, the position of the flexure element along the lever member defining:

(i) a working arm of the lever member between the flexure element and the movable platen and (ii) an effort arm of the lever member, between the flexure element and the point of contact of an actuator, and the effort arm driven by the actuator to shift the movable platen from the resting position to the actuated position, such that the travel distance of the movable platen between the resting position and the actuated position is proportional to the ratio of the length of the working arm to the length of the effort arm."

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
